Presidential Nominations Before the Senate.

Open Sessions Do Not Promise to Be Frequent or Long.

A Gift of Land in Indiana Accepted by the Red Cross.

Complaints of Ill-treatment at the Hand of Turkish Officers-The President and Mrs. Cleveland at Church,

Telegraph to The Times. WASHINGTON, March 19 .- By the Associated Press. | There is no reason to expect the Senate will enter in earnest this week upon the business for which it was called together. So far not a single nomination has been acted upon except Cabinet appointments. Exclusive of half a dozen army and navy promotions, there are now sixteen Presidential nominations, which have not yet been passed upon, even in committee, and therefore it is unlikely that tomorrow's session will result in any confirmations unless the committees manage to meet in the morning. It, however, is the intention of the committees having charge of nominations to get together early in the week, and it is probable that within a few days there will be some material in hand upon which the Senate may act in executive session. Saving the possibility of a contest over an attempt to reorganize the force of employes, the open sessions of the Senate during the week do not promise to be frequent, long or interesting.

FOREIGN MISSIONS.

Complaints of Ill-treatment at the Hands of Turkish Officers, Washington, March 19.—[By the Asciated Press.] Several representatives of the American Board of Commissioners from Foreign Missions visited Washington last week. They came from the Boston headquarters of the oody with which they are connected and

had several interviews with Josiah Quincy, acting First Assistant Secretary of State. They told Mr. Quincy that Turkish officials interfered with the correspondence of American mis-sionaries in that country; that the mis-sionaries are subject to much ill-treat-ment by the natives, who are not restrained by the authorities; and that messages from United States Minister Thompson to the State Department in Washington had never reached their destination, from which he (Thompson) inferred that his mail had been tampered with. The statements are positive that an investigation of the records of the department has been ordered to determine whether or not correspondence on file will substantiate the assertions. The investigation will be completed in a few days, and the result, which, it is said, will fully sustain the charges, will be communicated to the Boston gentlemen.

After her marriage Mrs. Cleveland came to this church and was enrolled as one of its members. They will continue to use the pew which was formerly occupied

Gift of Land in Indiana Accepted by WASHINGTON, March 19 .- [By the Associated Press. | Miss Clara Barton, president of the American National Red Cross, today wrote Dr. Joseph Gardner of Bedford, Ind., accepting gift of land near Bedford as a site for the Red Cross to accumulate and produce material and stores for a sudden emergency or great calamity. The business headquarters of the Red Cross remain at the national capital, of neutral ground on the western hem-isphere protected by international treaty of the military powers of the world against the tread of hostile feet.

Killed on the Highway. LAKEPORT, March 19 .- James Serrell was killed at Scott's Valley, about three miles from Lakeport, by Will Stevens, a neighbor of Serrell. The Will shooting took place in the public high-way at 7 o'clock p.m. Particulars are meager. The cause is not known. Sheriff has gone to arrest Stevens.

Schooners Collide,

San Francisco, March 19 .- The schooner Kodiak, bound for Alaska, collided with the schooner Mary E. Russ, bound for Eureka, off the harbor this afternoon. A dense fog prevailed, and the headgear of each was carried away and other slight damage done. No one was hurt. Both vessels were towed back to port for repairs.

PAROCHIAL SCHOOLS.

opular Education the Pride and Glory of the Nation. JERSEY CITY, March 19.—|By the As-

sociated Press.] Rev. John L. Scudder, of the Jersey City Tabernacle, tonight preached on the subject of "Parochial Schools," in connection with the bill French Rioters Attack recently introduced in the New Jersey Legislature. In part he said: "The public school is the foundation of American liberty, and any man who tries to undermine it is a traitor to the tries to undermine it is a traitor to the country and an enemy of a free people. Our system of popular education is the pride and glory of the Nation, and every loyal American citizen will uphold it with all the energy of his being. To surrender our national birthright to sectarian prejudice or compromise with an insidious priesthood would be the height of ious priesthood would be the height of cowardice and the forerunner of op-pression. I am glad to see this issue coming to the front so rapidly. We might as well settle it now, once for all, and save an endless amount of bit-terness and sectarian strife."

A Bank President's Return NEW YORK, March 19 .- A. A. Cadvallader, the absconding president of the Superior National Bank of West Superior, Wis., and charged with appropriating the funds of that institution a passenger on the Brazil mail steamship due here this week from Rio de Janeiro. He is a prisoner in charge of Capt. Charles F. Henry, one of the detectives employed by the American Surety Company of this city, which went on Cadwallader's bond.

MACKAYE'S SPECTATORIUM.

One of Great the Permanent Attractions of the West.

n Alliance Effected Between Natur and Art-The New Order of Entertainment as Described by the Author.

CHICAGO, March 19 .- [By the Associ-

ated Press.] Members of the press

were today given a private view of the

Spectatorium devised by Steele Mackaye, and which will be one of the great permanent attractions of the West. Its description is best told in the words of the author, who, in speaking of the objects of the Spectatorium, said: "The object is to make an alliance between nature and art such as has never before been effected, and to utilize this alliance for the most impressive illustrations of the grandest stories of human struggles and achievements in history. The Spectatorium was invented for the pur-pose of producing an entirely new order of entertainment to which has been given the name of 'spectaterio,' which is a combination of spectacu lar and oratorio. There are three species of music employed. The first, symphonic, which follows all cosmic changed scenes and all dramatic action of the story. The second is incidental music, which illustrates with instruments of time music of various ages.

The third is choral music which is an The third is choral music, which is an adaptation of the old idea of the Greek chorus, as, for instance, during the voyage of Columbus, when the great navigator encountered meteors, storms, hope and fear. Voices of an invisible chorus will celebrate the different emotions. During the storm a de-moniac chorus sings the song of super-stitious terror to the sailors, as it dies away a divine chorus is heard singing most inspiring songs of hope and faith."

The Spectatorium occupies a space of about six hundred feet square and is 270 feet high. There will be twentytwo stages, all of which will be fur-nished with scenery of an entirely new order. The frame of each stage ture will be 150 feet across, 70 feet high and 400 feet deep. It requires over six miles of railroad track for the stages to move upon and a change of scene is effected in forty seconds. There is an entirely new system of Inghting, the alm being to arrive at as close a reproduction of the light effects of nature as possible. There is also cyclonic machinery and current and wave makers. The undertaking has been capitalized at \$2,000,000, the whole of which is held by 100 people.

JUDGE LYNCH

Murderer Gets a Taste of Tennesse Justice.

JELLICO (Tenn.,) March 19.-[By the Associated Press.] At midnight last night Jailer Irwin was called to the door of his residence. He looked out upon the courtyard, and determined leaders of the people at once covered him with rifles and demanded that he unfasten the doors and lead them to Jesse Jones, whose attempted arrest vesterday led to the shooting of Sheriff Burnett. The jailer obeyed orders, and soon Jones was brought forth, and the march taken up until the barnyard of Rev. J. L. Lindsay was reached. Before an old-time beam gate the mob halted, and one of their number placed a rope over the top of the beam. Jones

Warring Factions.
Swedesboro (N. J.,) March 19.—The varring factions of St. Joseph's Catholic Church remained true to their chosen priests today, and the rebellious Father Treacy and Father Leahy each celebrated mass to about the same number of persons. Neither priest ob-tained possession of the church, the edifice still remaining in the clutches of the law. During the services both sides had reconnoitering parties out, but no disturbance of any kind took

place. A Royal Smash-up.

obable Fate of Germany's Army Bill-Emperor William's Narrow Escape

in a Violent Thunder Storm.

By Telegraph to The Times. Paris, March 19 .- [By Cable and Associated Press. | Socialists at Roubaix today stormed a hall in which Catholics were holding a private meeting. The rioters forced their way to the platform where the priests had raised an altar and placed a crucifix. They spit on the crucifix and broke it into fragments, and tossed the pieces into the congregation. The priests were attacked and knocked down, and carried to the doors and thrown into the street, while some of the rioters drove out the men, women and children of the congregation, and others smashed the furniture in the hall. Many were seriously injured by being knocked down and trampled upon. Numerous arrests were made and more are expected to follow.

GERMANY'S ARMY BILL.

The Prussian Minister of Finance Talks of It's Probable Fate. BERLIN, March 19 .- [By Cable and Associated Press.] An Associated Press correspondent had an interview today with Dr. Johannes Miquel, the Prussian Minister of Finance, concerning the critical situation created by the attitude of the parties toward the Army Bill. 'Dr. Miquel's opinions on the sub ject are regarded as exceptionally important, as he is being accused daily of intriguing to overthrow Count von Caprivi and secure his own elevation to the Chancellorship.

"In the event of a dissolu-tion of the Reichstag," said Dr. Miquel, the majority of German electors, I believe, will support the Army Bill. In my opinion, however, the wisest course would be to effect a compromise with the present Reichstag and thus avoid the disadvant-ages suffered by the country from a general election. A majority for the present measure in a modified form could be secured by some diplomatic negotiations with the Clericals and Radicals. The Chancellor's refusal to compromise, however, is the cause of present critical condition of af-

Lightning Flash Conducted by a Tele-phone Wire.

New York, March 19.—[By the Associated Press.] A Berlin cable to a morning paper says: "The Kaiser had a narrow escape yesterday afternoon during a thunderstorm, though none of the morning papers received reports of the facts. While asking the central office to call up Caprivi denly ceased working. The Kaiser immediately ordered Moltke to drive to the central telephone office and investigate it. When Moltke ar-rived at the central office he learned that two women and one operator and a stenographer who ally receive and transcribe the Emperor's commands were senseless on the floor by a shock from the wires. When they sufficiently recovered the girls explained that in the midst of the Emperor's message a brilliant light flashed into the room, and the switchboard emitted sparks, and the next moment they fell to the floor. A lightning flash had fallen on one of the wires and been conducted into the room where the two girls were oper It was miraculous the bolt did ating. not strike on the wire the Emperor held to his ear. The Result of a Battle Fought at Sants

Lucia.
PANAMA (Colombia,) March 19.—[By Cable and Associated Press.] A plot to overthrow President Sociaga of Nicarauga has been revealed by the wife of

one of the conspirators. Advices from Honduras give an acount of a battle which took place a week ago at a place called Santa Lucia, near Yusacaran. The battle lasted the greater part of two days. Government troops, commanded by Gen. Villeia, attacked the position heid by Policarpo Bonillas, the chief general of Terrencio Sierra. Villeia was forced to surrender. The battle was the bloodiest one which has taken place during the revolution. One hundred and fifty men were killed on the field, of whom 100 belonged to Villeia's army and fifty to Sierra's troops. Gen. Bonilla has oc-cupied Juticalpa, meeting with no re-sistance. He also captured 500 rifles.

A QUIET CELEBRATION.

Services in Memory of the Patriots of the Revolution of 1848 BERLIN, March 19 .- [By Cable and Associated Press.] The celebration yesterday in memory of the patriots who fell in the revolution of 1848 was quiet beyond all expectations. The police made elaborate preparations to quell disturbances, but found no need of interfering with the small and orderly group that went out to lay wreaths on the graves of revolutionary martyrs. Outdoor meetings, for which arrangements had been made, were ren dered impossible by the weather.

A Brigand Chief Captured ACAPULCO (Mexico,) March 19.—A courier has arrived here bringing news of the capture of Leandro Solo, one of the most desperate and famous bandit chiefs in the State of Gurrero. A fer days ago a strong force of troops made a raid upon the redezvous of the brig-ands. In the fight which followed two soldiers were killed and three brigands wounded and Solo captured. He will be summarily shot upon arrival here.

The Naronic Still Among the Missing, and the Company's Agents Have Abandoned Hope of Hear-

HALIFAX (N. S.,) March 19 .- [By the Associated Press. | At 9 o'clock tonight it was announced from the signal station that the steamship Sarnia and steamer Newfield had been sighted off this port, and considerable excitement was caused thereby. The Sarnia, of course, had to anchor at quarantine for inspection by the health officers. The Sarnia will come up to the city tomorrow morning, and the only communication held with her tonight was by the port officer's steamer. Press resentatives were not allowed, the boat, but from those her it was learned the Sarnia's engineers had, after working night and day, repaired a broken shaft, so that the steamer took in her sails on Friday morning, and went ahead under steam at about eight knots an hour, reaching here as above stated. All of the seven hundred and odd passengers are well and were well cared for, the ship larder being ample for all wants.

THE NARONIC STILL MISSING. New York, March 19.—There is still no news of the Naronic, and the agents of the missing freighter are ready to admit that the chances of her ever being heard from are becoming decidedly small. With the arrival of the steamer Oilinda from the Azores yesterday nearly all hope of hearing from the Naronic has been abandoned. Her captain reported that he had heard nothing whatever of the vessel.

DEATH G. A VANDERBILL. A Brother of the Late Commodore Died

Yesterday.

New Brighton (S. I.,) March 19.— [By the Associated Press.] Capt. Jacob Hard Vanderbilt, brother of the late at his home at Grimes Hill, Staten Island, at 6 o'clock this evening. He had an attack of congestion of the lungs two weeks ago, and his death has been expected for several days. His son, J. H. Vanderbilt, Jr., was alone at the bedside with the nurse at the time of death,

his daughters and nephew, Cornelius Vanderbilt, having—left the house a short time before the end came. Capt. Vanderbilt was born on the east shore of Staten Island on September 2, 1807. For nearly forty years he com-manded steamboats plying between New York and ports on the Hudson, on Long Island Sound and in New Jersey. In 1884 he retired from active life and has since lived quietly at his elegant home, which overlooks the upper and lower New York bays. He married Euphemia Maria Banta, a descendant of Gen. Putnam, in 1848. She died in 1877. Three children survive him. The funeral arrangments have not yet been announced, but he will be buried in the Moravian Cemetery at New Dorp,

Jim Hall Badly Beaten by New York Hack men.

Charley Mitchell Continues to Talk About the Coming Fight.

A Couple of Proposed Fistic Matches for Fitzsimmons.

St. Paul Wants the Corbett-Mitchell Scrap-Champion Dixon Will Box. Siddons at Coney Island.

By Telegraph to The Times.

New York, March 19.- [By the Associated Press.] Jim Hall, the Australian pugilist, has again found his match. Just after midnight last night he tried to fight several cabmen in front of the Hoffman House, with the result that he is now somewhere in seclusion nursing a badly-cut face and numerous bruises. Hall, just before midnight, drove up to the Hoffman House in a cab. He got out, and, entering the hotel, started for the barroom. He was drunk, and "Billy" Edwards stopped the pugilist and told him the bar was closed. Hall went back to where the cab was standing and pulled the cabman from his seat and began to use him as a punching bag. Other cabmen in the neighborhood rallied to their unfortunate brother's defense in numbers and determination, much to the discorr fort of Hall, who was thrown down and icked and punched by his enraged antagonists until he cried enough bleeding, and by this time sober, victim of Fitzsimmons' prowess was borne away by two sympathizing friends, who were passing at the time in a cab. THE 'SQUIRE'S MONEY.

Another \$10,000 Ready to Back Hall

NEW YORK, March 19,-[By the Associated Press. | In talking today about Jim Corbett's offer to fight him for a purse and honor, without any side bet if necessary, Mitchell said: "It is the only good thing I have ever known him to do or say. Of course, I appreciate his kindness, though I think his charity comes a little too late."

Mitchell also said: "Hall is ready to fight Fitzsimmons at the middleweight limit in the same week and before the same club where the fight between my

self and Corbett is to come off.

'Squire Abingdon was willing to put up
\$10,000 ito bind this match and the money is still ready and will be put up at any time. This is not meant as a bluff," but is a bona fide offer. I leave here on Wednesday on the Majestic, and want it understood that Hall and his friends mean business and their money is ready.'

Ike Thompson, a wealthy bookmaker, said he is willing to guarantee the money to bind a match between Hall and Fitzsimmons at the middleweigh limit, and that it would be put up a soon as Fitzsimmons accepted the offer

ST. PAUL'S BID.

A Scheme to Bid \$100,000 for the Corbett-Mitchell Fight.

St. PAUL, March 19 .- | By the Associrted Press.] The Phœnix Athletic Club of this city wants the Corbett-Mitchell fight and will present a communication to the Chamber of Com merce in the morning asking the sanction of that body to the club's offering a purse of \$100,000 for the fight. They also ask aid in securing the pas sage of a law allowing boxing contests before incorporated athletic clubs. In prevention of the Fitzsim mons-Hall fight two years ago not much stock is taken in the proposition.

DIXON-SIDDONS.

The Champion Featherweight Will Fill Skelly's Place

NEW YORK, March 19 .- [By the Associated Press.] Champion Feather-weight George Dixon has agreed to take the place left vacant by Jack Skelly, and will meet George Siddons before the Coney Island Athletic Club tomorrow night. This afternoon officials of the Coney Island Club and both Siddons and Dixon, after a long and vexing discussion, signed articles of agreement to battle twelve rounds for the original purse of \$2500.

Choynski Challenges Fitzsimmon San Francisco, March 19 .- On behalf of Joe Chovnski, Parson Davies tonight challenged Bob Fitzsimmons to fight for \$5000 a side and for the largest club purse offered. The fight to be at weights, and within three to six months.

That School Board Again-What Was It That Artemus Ward Said About "A Amoosin Cuss?"-More Sound and Fury. 1. 0

The School Board has been much dis

cussed of late, and while, unfortunately, there seems ground for some of the re proaches heaped upon them, it should not be forgotten that they are doing many things which must claim the ap proval, aye, even the enthusiastic sup port, of every proud and patriotic citi zen of the City of the Angels. We do not allude to the sinking of politics in the organization of the board, nor the happy union of all the good members against the reprehensible and unworthy partisan three; nor to the stern sense of propriety and right which impelled the gallant president of the board to sink his chivalric regard for woman and refuse Mrs. Hughes the position of chairman of the Teachers' Committee, to which she was entitled by reason of being the only member of the old board to be reëlected, and, therefore, by all rules of courtesy and custom in nonpartisan bodies, entitled to her choice of positions, even if her white hairs and recognized social standing did not warrant such deference to her wishes by the gentlemen who are her col-leagues; nor to the patriotic rush of the Platts from all quarters to throw themselves unshrinking into the yawning chasm of their country's needs, sal ary or no salary, or raised salary; no to the grandly historic sight when the dignified president called the culprits Freisner and Baker before the open board and crowded galleries, and, in solemn and sonorous tones, amidst a hush like that which filled Westminste when Burke hurled his philippics agains Hastings, read to them, trembling in their tracks, the words of the law which fixed their daily walk as servants of this exacting city; nor yet to that happier time, single and alone, when this racked and troubled board, forget ting their differences, like lamb an lion soothed, joined voices in one united vote, put out the lamp and left for

These themes do not attract us now even more pleasing is another good this board has done, and one which the people should recognize and applaud. Carpers should not forget that they are carpers should not lorger that they are finite; that but few of the world are otherwise; why should they marvel then that the ways of the board are full of mystery to them? So, too, is nature to all of us. We cannot fathom the plans our board prepares, as we cannot see where nature leads. We plant a seed, and anon, we know not how, there peers forth a slender sprig, which grows and swells until we rest beneath the spreading tree graphers in its welcome shade. dres alarm. The blaze threatened to burn an adjoining building, placing the Parker House and Park Hotel in danspread out, like genii of old, from the uncorked bottle, plans of beneficence

which stagger us. Little do we comprehend the working of Nature; little do we know the plans our board prepares till it opens before us a glorious picture which our small fancy could not even see in dream. That which now enraptures our attention comes from a little resolution innocent and unsuspected of having aught more than common place within its phrases. Who would have thought des the Union Temple Church that that little three or four-line motion on music could-hold within its words the germ of an idea which could an Haptist Missionary Mission, Home grow and swell till it could cover all

> The board has decreed that all teachers must learn music before next June; if they do not others will take their places. This means in early summer an unbroken band of sweet singers, all perfected in the arts of melody and

of harmony; mingled—sadly we own it—with wails of anguish from those unhappy wretches whom nature has sent forth into the world unapt at song and strangers to the beauties of tones, sub-tones and chords tonic, or domi-nant, servient or depressient, and other

mysteries of things musical.

Twice or thrice weekly. after the labor of the day is done, the teacher joy bor of the day is done, the teacher joy-fully flies to the singing mistress, and rapturously warbles for two short and happy hours, in chorus with fifty more of her mates, under the majestic baton in whose swing is or death. Life or death? so is the fiat. There must be failure. There shall be none while this noble and devoted board have sway. They will protect the people's interests. The teachers' must and shall be filled with the sweet melodies and perfect harmonies which their own Board of Education illustrates so hampily. That Education illustrates so happily. That there may be no mistake and no cause for complaint, and that the world may for complaint, and that the world may know what the board has willed, they announce to the teachers that they have

resolved that-The special teacher in music be required 1893, a written report of the work in vocal music, by each and every teacher in the de-partment whose duty it is to instruct pupils n this branch, and that the work of each teacher be graded in such report on a scale

That only those teachers will be retained in the Los Angeles city schools who ar qualified to teach, and who do teach suc qualitied to teach, and who do teach suc-cessfully all the studies required, in the grades in which they are employed, by the laws of this State and the rules and regulations of this board.

And these rules, they say, apply to all the teachers. And the laws of the Medes and Persians change not. When Mr. Patty, at the last meeting, to allay the worried spirits of the teachers and to preserve the idea that the schools after all would continue to teach a little of 'readin', writin' and 'rithmetic,' notwithstanding this recent decided move toward music, the board patiently listened to his protestations that music should not as he claimed overshadow. should not, as he claimed, overshadow all else taught; but seeing his inability to grasp the magnificence of the scheme which they were building, quietly voted him down and went on went on with other business.

The effect of this great step of the

board is that in June next the wheat will be winnowed from the chaff; all teachers who cannot sing to please "the special teacher in music" will not "retained," and others on whon heaven has bestowed vocal chords which satisfy this "special" teacher will take their places; and then, ah! proud and happy Los Angeles, then may we challenge the world in another field; no longer must we boast alone of climate, fruits and flowers; then may g abroad the sproud news that here, on this Pacific Slope of the new world, in Nazereth indeed, has been made a long stride in education, in civilization and culture. Here a body of musical pedagogues, trained by latest methods, Western methods, till the perfect fusion of voice with act, of mind with melody, shall make our education a rythmical culture, and bring our happy Angelenos to chase harmony through life as surely as their mellow voices trill through a

beautiful tone fugue.

Orpheus of old charmed all things living with his lute: the Pied Piper drew after him an ever-swelling train of rapt attendants; music charms timid mouse from his retreat; deadly "rattler" owns the spell and calmly crawls from shelter to his death: the doggie howls his chorus; Jocko dances his delight; and now, at last, French science boldly claims in melodious symphonies a panacea for human ills, a pharmacopæia fuller than the list of drugs, and infinitely simpler and

more palatable.
All the world bows to the power of soothing strains; but to our board-our board; how proudly we roll these words!—but to our board, of all the boards on earth, is reserved the distinction of discovering how easily is to be attained all musical perfection One little resolution, and Los Angele has a corps of teachers, each of whom without exception, could not only teach all the scales, chromatic, diatonic the brilliant exemplar of the "special teacher," without a quaver, or semi-quaver, or even a demisemiquaver or shake, soar and scale the gamut, swelling and trilling, crescendo and decrescendo, till poco a poco, mezzo, piano and pianissimo, there comes the final

syncopation, amid the awed and hushed attention of her hearers.

The board has builded better than we knew. To us the edict which snatches seemed harsh, and when we knew of those who spent their hard-earned pence for extra hours, that they migh perchance be fitted to find favor in th eyes of the one and only "special," and might by her kind nod be still "retained" to serve our people in the future it seemed a heavier burden laid upon it seemed a heavier burden laid upor them; and then the threat that were they not so fortune-favored as to win the "special's" smile, they should, in the "special's" smile, they should, in next dog days, seek other fields of labor,

made our blood boil hotly.

But now that the full beauty and amplitude of the conception begins to dawn upon us, we see our littleness and blindness when we were ready to hear reproaches against this all-wise board, whose wide foresight and vast reach have started this stupendous movement in advanced

Think for a moment what this step means. Our teachers, all expert in the theory of thorough bass; all vocalist of finished methods and purest tones, for surely the "special" will not tolerate any who are not perfected; all performers of accepted touch on all the instruments of repute, for surely too, the 'special' will not stop, nor would our board of advanced ideas and methods permit her to stop, short of perfection in accomplishments for these teachers in whom we have such pride. Then, with this body of zealous proficients in harmony teach tolerate any who are not perfected; zealous proficients in harmony, teaching the youth and infusing the mature and old with their enthusiasm, till this city becomes a ferment and a center of inspiration to the rest of the region and of the State and Nation—the thought is too grand. And this all from the board of whom we have thought slightingly Was ever such injustice done?

And now, with the future of our schools before us, what teacher can have heart to lag? Will anyone begrudge the hours and gold this call demands? What sordid father will complain, for-sooth, his boy does not know how to "figger" and to write? Will any blind mother scold again because her girl cannot spare time to learn to spell and parse? Ah, no: for this new cuit is on a plane above the old. Henceforth let melody and harmony prevail; and to the great and good upon our board let all the glory be. C. C. D.

A Long Voyage.

New York, March 19.—After a prolonged voyage of 362 days, during which she twice rounded the Horn and twice crossed the Atlantic, met and vanquished the fast British ship Kensington in an ocean race, and finally fell in with a whole family of water-spouts, the American ship Shenandoah arrived in port yesterday. The water-spouts were sighted five days ago, about five hundred miles off the coast.

GRAND ARMY MEN.

The State Encampment Will Open Today.

Arrival of the San Francisco and Other Northern Delegations.

Met at Saugus and Escorted to the City by the Committee.

The Programme for the Entertainment This Evening-The Line of Procession Wednesday—Sons of Veterans and the W.R.C.

About five hundred Grand Army men, many of them accompanied by their wives and other members of their families, arrived yesterday, and are in read-iness for the opening of the State Encampment this morning.

Chairman George E. Gard of the local Reception Committee, accompanied by about thirty of its members, left the city on an early train yesterday morning and went northward as far as Saugus, at which place they remained until the arrival of the train bearing delegates from the northern part of the State. The train was in two sections, about half an hour apart. The first of these sections had come from Sacra mento, by way of San Francisco, and contained delegates from many points North. The second section carried the department officers and delegates, most of whom were from San Francisco. Nearly all of the members o the Reception Committee who had gone to Saugus boarded the latter section and returned to this city in company with the department officers. Ar-rangements for the care of the visitors immediately on their arrival at Los Angeles were made as far as possible efore reaching here.

Meanwhile there were to be seen at the Arcade depot several G.A.R. men, wearing the badge of the Reception Committee, and a score or so of ladies. each displaying a white ribbon bearing the words, "Los Angeles W.R.C. Re-ception Committee, 1898." As soon as the sections of the train from the North pulled into the station the visitors were promptly welcomed by members of the respective organizations, and were escorted to places where they could be accommod ated. Adjt.-Gen. T. C. Mastelli of the de-

partment staff brought his horse from San Francisco, the animal being car-ried in the baggage car and arriving in good condit on. He will ride the horse the parade Wednesday morning.

During the afternoon a meeting of the Executive Committee of the department was held, but aside from that the time during the remainder of the day

was devoted to chatting and general enjoyment.
The G.A.R. headquarters have been located at room No. 16, Hollenbeck Hotel, and a meeting of the Depart-ment Council of Administration will be held at that place at 10 o'clock this morning. Arrangements for organiza-tion will be perfected at that time, and

the business session of the department will begin at 2 o'clock in the afternoon, EVENING ENTERTAINMENT. The evening entertainment will be given at the Grand Operahouse, and

the following programme is announced to be presented: Overture, "America" (Tobani)-Grand Operahouse orchestra, H. E. Hamilton, con

Miss Blanche Rogers is to be accom-panist, and members of the Sons of Veterans will act as ushers. The committee to have charge of the affair is comed of the following, the ladies the W.R.C., and the gentlemen from the G.A.R.: Mmes. G. A. Cutler, F. M. Sterling, S. A. Austin, George Weeks; Messrs. J. A. Osgood, Edwin Munsey, Dexter Samson, R. H. Williams, W. H. Seamans.

CANDIDATES FOR COMMANDER.

A reporter talked with a number of G.A.R. men last night in regard to who is likely to be elected Department Com-mander. The names of Senator E. C. Seymour of San Bernardino, Dr. Stout of San José, and Maj. J. A. Donnell were mentioned by some of the gentlemen, and every man from the northern par of the State who was questioned stated that as far as he knew he believed the man from the southern part of the State

receiving the election.

Frank Hobart of Ventura, the commander of the Southern California Encampment Association, is at the Hollen beck, and states that some time during the week there will be a meeting of the Council of Administration of that organ-ization, at which time it will be decided where the annual encampment of the association in August shall be held. He says that the Santa Barbara people offered a \$1200 bonus on tion that it be there.

Ir the business situation isn't away up in G in Los Angeles then it ought to take in its sign.

THE fat prophet does not seem to like machine statesmanship unless he can be the engineer.

And now Vallejo clamors for the capital. What is the matter with Milpitas getting in its roar?

RHODE Island is to have the first hoop skirt factory. And now things will be crowded in "Little Rhody" worse than ever.

EVIDENTLY the President is trying to find some country where neckties "don't go," in order to fit John P. Irish into a suitable job.

THE dear old simon-pure Democrats are wondering when the mugwump and Republican hogs are going to get their feet out of the trough.

THE Sacramento Bee is still wriggling its stinger, and asking the agitated populace what it is going to do about it.

There is fun in Malariaville and all along the levee.

It looks mightily as if Grover was going to do a little of this appointing business his own self. Great is the President who has influence with his own administration.

LETTERS 3000 years old have been found in the mounds of Egypt. The probability is that some Rameses or other hid them there so his wife wouldn't find out that he had failed to mail them.

GROVER seems to be so stuck on giving office-holders but one term that it is wonder he consented to run a second time. The jewel of Grove's consistency looks very much like the most ordinary kind of paste.

THE Chicago papers are calling upon Mr. Cleveland to pick out a consulship somewhere and plug it up with Holman of Indiana. But across the blue distance we fancy comes the far cay of that cheese-paring Hoosier, saying: "I object!"

THE streets of the southern metrop plis will look today as if the Yanks had "took" it. They are here in squads, companies and battalions, and every mother's son of them is as welcome as the poppies that bloom in the spring, but yonder on the mesas.

THE spectacle of Sacramento crawling around on its bread-basket and supplicating the Legislature not to carry that "joke" too far, is somewhat like that other one of a horde of place. wanters "crooking the pregnant hinges of the knee" to his royal avordupois with the misfit halo.

THE editor who consumes whole, quarter and half pages, and insists on using those large robust letters that loom up like the printing on a circus poster, was doing business in THE TIMES yesterday with great glee. That sort of a "journalist" seems to have a pull with this great religious daily that beats the world.

Mr. CLEVELAND is said to be working off a lot of hoary-headed jokes on the office-seekers, at which, of course, they are compelled to laugh whether they get a job or not. But if Grover's jokes are as involved and dense as some of his sentences he would have to furnish diagram with them in order to get a smile out of anybody but an officeseeker.

PEOPLE OF THE SOUTH! the brigade i oing by. Take a good long look at it, or the ranks are getting mighty thin the years roll around, and poco npo there won't be enough of it left o swear by. The World's Fair isn't a ching as a show alongside these old ys of ours who are marching down the aset side of the long divide.

SACRAMENTO seems to be getting gular cylinder-escapement movement n it since the prospect looms up on its izon with a ruddy glow that it is cely to lose the capital. If the agitaserves to get a new hotel in that wn, those ramshackle awnings of '49 rn down, and some paving done on e streets, it will be worth a whole lot the State, whether the seat of govent is shifted or not. There is othing like shaking a lethargic people once in a while, and Slickensville eems to have had a rousing that is a sale-curler from way back.

But the noblest feature of this noon aw of Austria is the way in which it deals with the children of the poor, and the wise provision it makes to prevent the perpetuation of the poverty, which has enchained the parents. The way to success is made as easy for the children of poverty as for the children of the better classes. We find it stated that "no child is there, in any circumstances, sent to a workhouse. If it have neither parents, nor other relatives who can provide for it, it is adopted by the town and placed under the care of a Waisenmutter if it be a girl, or a Walsenvater if a boy. Considerable trouble is taken to prevent any stigma being attached to these children on account of their destitute condition. They are neither called paupers, nor are they regarded in the light of paupers. Many of them attend the national schools, where they mix with their companions upon terms of the most perfect equality. In these schools they are supplied with books free of charge; special scholarships are offered for their competition, and any child which shows signs of unusual talent is given the opportunity of cultivating it. The university, even, is in full sympathy with public opinion upon this point, and in its statute book there stands a decree admitting the sons of pauper parents to all lectures and examinations without the payment of any fees. Scholarships and lectures are however, only for the very special cases for the city has no intention of training students; what it aims at, rather, is making its protegés sober, industrious working men and women. The boys are carefully taught some handicraft, while the girls are prepared for domes tic service, laundry work, or any suitsound reasons for believing that Los able calling for which they may man-

ifest an aptitude." In the midst of such environment as this, and with the paths to success so smoothed for them, the children of the poor ought certainly to look forward as hopefully as the children of the more favored classes. And, begin right make the children what they should be give them the advantages they need and take from them the reproach of poverty, and we have done much to make certain their future as men and women. Properly trained and with the inducements for effort keep before them, the majority of them will seek to avoid the mistakes of their parents which led to such disastrons results. The world is beginning to fully grass

the idea, that the future of the world is in the hands of the children of today who are to be the men and women of tomorrow. Educate them to habits of ndustry, of self-reliance, and, while aiding them, guard carefully against whatever wounds their self-respect or weakens their budding manhood, and the chances of their becoming the good and industrious citizens of the future are radically enhanced

number of cloudy days, 7.
Wind.—The prevailing winds have been from the west; the highest velocity of the wind during any April was forty-two miles on April 12, 1883.

A GOWNED YOUNGSTER.

[From Our Regular New York Fashion Cor

respondent.] The little boy's dress shown is alike back and front, and is closed behind with four visible buttons. The material used is pale blue flannel, with a round tucked voke of the same good finished with two pink ruffles. The dress is made of straight breadths, and is fastened to the yoke by three rows of gathers. Each row is trimmed with a pretty fancy stitch, done in blue silk It is lined at the top only, and has wide sleeves trimmed with pink ruffles.

In making a dress of an ordinar white material it should be remembere that white by itself is simple, and that made up by itself it should carry out this idea. Directly you desire to add material very heavy and dignified or striking; as a very stiff brocade, or a

You may attain elegance in white
by a marked simplicity of cut and
an addition of pearl beading or embroidery. If you desire a chic or

gold or silver or a brilliant beading.
Thus white can be made. Thus white can be made to mean anything. It is the same with black. meittee appointed recently by the wheelmen of this city in the matter of dividing the State division of the L.A.W.:

To the L. A. W. members of Southern California—Grecting: The committee appointed by the Los Angeles Wheelmen to secure, if possible, a separate division for Southern California, are pleased to report that the constitutional convention, held in Philadelphia, Pa., February 20-21, 1893, has granted California's wish. The State of California will be recognized as two States, the North California and South California divisions.

A convention is hereby called to form the South California Division, L.A.W., to be held in Los Angeles, Cal., on Saturday, March 25, 1893, at 2 o'clock p.m. All league members residing in the counties of Los Angeles, Orange, San Diego, San Bernardino, Ventura, Riverside and Santa Barbara are entitled to a seat in this convention, and it is hoped that every member will make an effort to be present.

At said convention officers will be elected to hold office until the regular election in the fall.

The matter of awarding the division meet and arranging date for same will be decided upon; also other important business. We have demanded a Southern California division, and in doing so we have attracted the attention of the cycling world. Let us work together and organize a division that will be a pride to ourselves and a credit to the league. To do this it is necessary to have the support of every member in Southern California.

The Los Angeles Wheelmen will provide supper for all visiting wheelmen. At 8:30 o'clock p.m. a lantern parade will be given through the principal streets of the city, in which visiting wheelmen are invited to participate. Lanterns will be furnished. Decorate your wheel with bunding and bring it along with you. For those who can remain over Sunday a run will be given, enabling visiting wheelmen to see Los Angeles and its environs.

Give this matter your careful attention, and endeavor to make arrangements to attend the convention.

THE ANGELS AT PRACTICE. A well-known traveling man, one of the most pronounced "fans" in the city, who occupied a box seat during most of the games last season, has just returned from San Diego, where he witnessed the Los Angeles team at practice. He is more than pleased with the prespects and condition of the boys, and in conversation with a Times reporter yesterday said:

((ate the Bettie colt,) Bowers and Domino, Tournament, White Rose, Alonzo, and some twenty other horses, including fourteen two-year-olds, and Fitz-patrick, "Jimmy." Lamley and Midgley to do the riding, it appears to be an extremely well-equipped racing combination. Nobody would object to see the former owner of Foxhall again in the front rank of American turfmen. A well-known traveling man, one of reporter yesterday said:

boys, and in conversation with a Times reporter yesterday said:

The daily practice now in progress at San Diego will put the local team in tiptop condition by the opening of the season, if hard work and regular, systematic practice counts for anything. Promptly at 10 o'clock in the morning, the members of the local team assemble at Recreation Park and are then put through fielding and batting practice, after which a spin around the track of a mile or two, completes the morning's work. Then at 2 o'clock in the afternoon the men are put through batting and base-running practice again, after which all adjourn to the Silver Gate bath, where hot salt water baths and a vigorous application of alcohol (externally applied) are next in order. This kind of work will soon put the locals in fine fettle, and it is very reasonable to suppose "the Angels" will have their wings in good working order by the time Finn's aggregation arrives to try conclusions with the Southern champions.

der by the time Finn's aggregation arrives to try conclusions with the Southern champions.

It is stated, upon good authority too, that the locals are a much faster fielding team than "the Angels" of last season. The infield is particularly fast, and base hits will find a stone wall to contend with in their flight. Scheibeck at shortstop is quick as chain-lightning on ground hits, and handles himself like a veteran. Stafford at short field will never be missed; that is an assured fact. Old "Gladstone" McCauley is still the grand old man on first base, and scoops them up as of yore. Hulen at third has improved on his work of last season and will easily be the finest third baseman in the league. Van Dyke in left field is the fastest man ever seen in California, and few base hits will drop in his iterritory. Wright in center is working hard and will surprise the people by his fielding this season. Lytle is doing finely in right field, and, taking his work in practice games as a criterion, he will lead the fielders easily. Now for the pitchers. Roach is the same old reliable twirler of last season, and has the increased distance down to a T. Left handers are going to be "in it" this season, and has the increased distance down to a T. Left handers are going to be "in it" this season, and has the increased distance down to a Teach and the blonde twirler of the Cherubs will be there when the fight begins, you may be sure of that. Nicol is showing himself to be a splendid man. He has a nice easy delivery and seems anxious to do his best at all times. He works hard in practice, and when it comes his turn at the bat he cracks out line hits and grounders as well as the best of them. This man Nicol will be a decided success. Sheehanf the catcher, has not yet arrived, but he is reported to be a fine catcher and a heavy batter. It has been stated that the "Angels" can't hit as well as lâst season's team, and I will say that the first few games will clearly demonstrate that the batting will say that the first few games will c

A unique corner of the earth,

That's Coronado Beach. Do you know where it is? Coronado Beach is the penin-sula forming the breakwater of the Bay of San Diego, and is situate in the extreme corner of the United States, 124 miles south of Los Angeles and 15 miles from Old Mex-ico's border land.

team, as at present constituted, will be right in the race, put a pin here. That the "Angles" will take the pennant again seems to be the prevailing opinion down here among the San Diego cranks, who swear by the Cherubs. I can assure the people of Los Angeles that the citrus belt will be represented by a fine, well-balanced ball club, composed of gentlemanly players who will be a credit to the Angel City as well as to the California League. HERE are two ways to conduct a business, a right way and a wrong way. There is no betwixt and between. We advertise to refund money on all goods not satisfactory. All we ask is for the goods to be returned in a good merchantable condition, and they will be taken back. There is no hemming and hawing. There is no red tape. No waiting and no bickering. We live up to our agreement. We secure the confidence of the public, and this is all we ask. We advertise to give samples freely, and we do it. We advertise to show goods freely and we do it. We spend a great deal of money for advertising-more than any two concerns in the city-and this money is expended for good results. As long as we tell the truth and keep faith with the public, there is good to come out of it. We believe in a progressive business. We place our light before the public. We never speak ill of our competitors. We make no reference to their business. We go upon the principle the nearer we come to the business we have in hand, the more respect we gain from the public. When we say our dress goods sales are more than double over a year ago there is no exaggeration. It is a new move in busines that has placed this department far in the lead. Moderate priced goods of exceptional quality and style-the class of goods the great majority buy. New colors and moderate profits. All-wools at 50c, 60c, 65c, 75c, 85c, 90c and \$1.00 a yard. The Santa Monica Wharf and Panama Business.

Information That Traffic Manager Leeds Acquired in New York

New Mileage That Will Be Built This Year.

The Southern Pacific's General Manage Visits Los Angeles-Senside Visitors and the Big Wharf-

This, from Saturday's San Francisco Call, is interesting, whether it is true

This, from Saturday's San Francisco Call, is interesting, whether it is true or not:

When J. S. Leeds, the traffic manager, was in New York, a few weeks ago for the purpose of arranging the terms between the Panama Railroad and the North American Navigation Company, C. P. Huntington's men flaunted the Nicaragua canal and the Santa Monica transportation bubble continually into his face, and the people he was trying to negotiate with were told that the isthmus trade would be ruined by these two prospective enterprises. Mr. Leeds, of tourse, knew well that the Nicaragua canal project is as yet not in a shape to influence the trade via Panama and that under the most favorable conditions a long time will necessarily have to elapse before it can possibly become a factor to be considered. The traffic manager had, therefore, no trouble to dispose of the Nicaragua canal story easily, but the Santa Monica business was a comparatively new bugbear created by Mr. Huntington's men for the purpose of scaring people who might otherwise interest themselves in the North American Navigation Company. As a matter of fact, the whole Santa Monica scheme is only a chimera, and the idea of freight being carried by the Pacific Mail Company from Central America to New York by the Sunset route by being landed at Santa Monica is absurd, because such a proceeding would necessarily be so expensive as to ruin any transportation company which would undertake to compete with the isthmus route in that way. The time between Central America and New York via Santa Monica would also be ten days longer than via Panama. It has been estimated that the annual business carried by the new navigation company will amount to 108,000 tons, against 29,000 tons per annum carried by the Pacific Mail Company in the past. The average freight rates being §4 per ton cheaper than by the Southern Pacific's system, the merchants' annual savings on the freight carried by the new on avigation company will amount to 18432,000. The three clippership lines that cafry freig

SCRAP HEAP. General Manager A. N. Towne, of the Southern Pacific, after paying a brief visit to this section, returned to San Francisco yesterday.

Conservative railroad men believe that about 10,000 miles of new track will be laid in the United States this This is about the average for the last ten years, but, besides the large number of railroads projected, many of the old lines are laying large amounts of double track. The increasing demands of traffic, exclusive of World's Fair business, have forced these extensions on established roads.

During the coming summer the high

During the coming summer the big wharf at Santa Monica will be a passenger attraction. When once it is in active commercial use the seaside visitors will probably find it pleasanter and safer to remain on the beach. The common impression that a pavilion will be built on the seaward end of the wharf, for the use of passengers, seems to be erroneous. But there will be big coal bunkers and freight sheds, and probably numerous signs warning peo-ple to keep off of the wharf.

CONFESSED HIS CRIME

Garcia, the Rape Fiend, Tells How the Assault Was Committed.

When the trial of José Garcia, the rape fiend, comes up on April 8, his plea of not guilty will be withdrawn and one of guilty as charged will be entered. The Indian made a full confession of the crime yesterday, acknowle edging that he had attempted to outrage Terica Cassula, the little Spanish

Garcia, ever since his incarceration in the County Jail, has been lodged in the insane cell, and hardly a day has passed that he has not given evidence of his vicious spirit by attempting to injure, in as many ways as he could dewise and with such instruments as he was able to secure, those in whose charge he had been placed. Since his last attack on Jailer Henry the prison attachés have been necessarily severe in their treatment of the flend, and Saturday night the mufles were placed on urday night the muffles were placed on his hands to prevent him from doing any mischief.

any mischief.

Yesterday morning there was a marked change in his manner. He appeared unusually docile, and after receiving food requested that he be allowed to speak with Sheriff Cline, as there was something that he wished very much to tell. The Sheriff was called by telephone from his residence, and when he reached the jail Garcia was brought out into the corridor.

"Did you want to see me, Joe?" the Sheriff inquired as the man was led

Sheriff inquired, as the man was led before him. The Indian signified as-sent, and then, without more ado, started in and made a full confession of

his attempt at rape.

Several days prior to the evening on which the crime was committed he said which the crime was committed he said that he was employed by a man up in the foothills, chopping wood. When he quit work there the man refused to pay him his wages, so he started down toward town. Just as he reached a point near the Catholic cemetery he saw a girl driving a cow down-the-pathway, and he called out, telling her to come over to where he was. The girl refused to comply with his request and continued on her way down the hillside. Garcia said he then hurried forward and overtook her. After speaking a few words he then siezed and threw her to the ground. The girl screamed and said that if he did not let her up her brother would kill him. Atscreamed and said that if he did not let her up her brother would kill. him. Atthis moment Garcia heard footsteps behind, and looking around saw two men coming. Releasing the girl he jumped to his feet and started to ran. His coat impeded his flight, so he threw it off and at the same time lost his hat. The two men, he said, were not more than ten feet away when he started. One of them threw a large rock which struck him on the leg, but did not hurt.

That night he walked down the river bed until he reached a point below the city, presumably Vernon, and here he hired out the following day to pick oranges in an orchard. His arrest occurred on the subsequent Saturday.

As to his vicious actions, he said they were due to trouble in his head, but now that he felt better he would give the jallers no more cause for complaint.

The Sheriff is inclined to think that

the Indian, after trying all methods of escape, has finally concluded that he will fare better by assuming to aquiesce in the prison rules, and that the excuse of trouble in the head is but a subterfuge.

The prospects for the coming bench show of the Southern California Kennel Club are unusually bright, and the prob abilities are that the entry list this year will not only be far larger than that of any preceding year, but that the quality of the dogs exhibited will be far superior. San Francisco has promised to send down some twenty-five or thirty of its choicest dogs, consisting of fox-terriers, bull-terriers, cocker spaniels, pointers, setters, greyhounds and St, Bernards, and it is rumored that the famous Glenmore kennels of Irish set-ters, from Kansas, will make their first appearance on the Pacific circuit here.

AT THE CHURCHES.

Dedication of the First House of Worship of the United Brethren.

ices at the Church of the Unity and the Temple-street Christian Church

Bishop J. W. Hott, D. D., of Wood bridge formally dedicated yesterday a neat little chapel at the corner of Hope and Pico streets, which marks the first house of worship in Los Angeles of the United Brethren denomination. Some two years ago a society was organized and Rev. E. A. Starkey called as its pastor. The little flock has met from place to place ever since. The lot was purchased about two years ago for \$3000, and the chapel was commenced three months ago. Its cost, including furnishing, is \$1054. It is a modest frame structure, its window panes of stained glass, and has chairs sufficient to seat, perhaps, 150 people. The Bishop, in his statement previous to the sermon, said that he first visited Los Angeles six years ago, and was then impressed with desire to found a church here, but the time did not seem opportune.

About two years ago one of the officers of the Young People's Christian Union, or the Young People's Christian Chilon, an organization of the United Brethren Church, wrote him that the society wished to do some specific work, and asked if they might do something toward planting a church. That was the beginning of the enterprise, and this society of young people throughout the church has courtinated \$1.757.60 to. church has contributed \$1757.60 toward it. The people of Los Angeles have given about \$1000 in cash and

Psalm, 4th and 5th verses, the central thought being "This one thing I do." It was an able discourse, occupying nearly an hour, illustrated by personal reminiscences drawn from the rich ex-perience of the Bishop, who is an able speaker, and held the closest attention

of his auditors.

At the close of the discourse he for the radiant faces of the people indicated their joy at planting this nucleus of what they hope shall grow to a large church. In the evening Bishop Hott preached again, and this evening he will lecture on "The Holy Land," which he has visited."

TEMPLE STREET CHRISTIAN CHURCH. Rev. A. C. Smither preached yester day morning to a well-filled house, taking for his text, "In Christ," based upon II Corinthians, iii:17. Without intimate union with Christ, said the speaker, spiritual life is impossible. In this relationship we have a new life, the source of which is in Christ; a new standard, which is Christ Jesus Himself, as revealed in the Bible; new duties to our God and to our fellowmen; new privileges, new joys and delights, and a new inheritance, enjoying the

CHURCH OF THE UNITY. Dr. Thomson's sermon vesterday morning was upon the subject, "How Faith in Immortality Affects Conduct,' and his text was taken from I Corinthians, xv:32; "What advantageth it me if the dead rise not? Let us eat and drink, for tomorrow we die." The discourse was an eloquent protest against materialistic tendencies and pessimistic philosphy. The church was thronged, as usual. The offertory solo, "The King of Love My Shepherd Is." was sung with much sweetness and sympathetic feeling by Miss Boynton.

are always the same. In the evening the pastor, Rev. F. M. Larkin, preached upon the subject of

'Regeneration. Because there is a mystery surrounding anything is no reason or excuse for not accepting it. This is illustrated by the common acts of every-day life, suc as the taking of nourishment for the sustenance of the body, accepting of the uses of electricity, etc., connected with all of which there is more or less mystery. We must understand these common things by experience, and this religion of Christ is also experimental.

ssemblyman Simpson Talks Capital and Other Legislative Topics.

The S. of V. State Encampment Come Here Today-A Future for Mt. Cox-Personal Notes and

The TIMES reporter had an interesting talk yesterday with Capt. C. M. Simpson, the Assemblyman from this district, who reached home on Saturday, from Sacra

On the matter of the proposed removal of the State capital, Capt. Simpson had no hesitancy in expressing his decided choice for San José, warming up to the subject, he said: "The much-talked about article in the Bee only precipitated matters. The subject had been quietly discussed for weeks, precious. It was evident from the weeks previous. It was evident from the

subject had been quietly discussed for weeks previous. It was evident from the start that there was an overwhelming sentiment in the House in favor of a change, and had the Bee article never appeared, action would simply have been delayed until the closing night of the session, when the result would have been the same. The miserable climate and moral degradation of Sacramento, and the almost total lack of push and progress there manifested, to say nothing of the ultra seclusiveness of its citizens from a social standpoint, were the prime factors that brought about the result. And now that the question has gone to the people of the State for settlement, there is no doubt whatever but that San José will be chosen by a large majority."

Capt. Simpson speak advisedly, as he made careful inquiry as to the sentiments of the people throughout the northern section of the State prior to his departure for home. He is, further, of the opinion that the proposed change will in no way prove a stumbling-block in the way of State division, but will rather hasten such a result.

Mr. Simpson also speaks in no uncertain way in favor of extending the time of the legislative session. "In Kansas, where I formerly resided, and where the public interests are much the same all over the State, sixty days is ample time for the enactment of all needed legislation. In Callfornia it is different. The State comprises such a vast amount of territory, and the interests are so widely at variance, that it is impossible to give proper consideration to many of the important measures that have to be acted upon. The mining interests and the horticultural and agricultural interests have little in common, which, to gether with the interests peculiar to San interests have little in commo gether with the interests peculiar to San Francisco, and the great amount of work which accompanies the rapid influx of population and the building up of such an amount of territory, make it wholly impossible for the legislators to do all that is demanded of them in so short a period. I have been active in public affairs during the past twenty years, and I never in my life worked so hard as I have during the lest two months at Sacramento." ether with the interests peculiar to Sar Francisco, and the great amount of work last two months at Sacramento.

Uncle Hiram, which is to be presented at the operahouse Wednesday evening, is said to be a very funny comedy. "Uncle Hiram" goes to New York city and gets into all sorts of scrapes, and gets out of them in good style, and altogether has a very brisk and amusing experience. There is a story of crime and adventure connected with it all, and in the development of this two very striking and realistic of this two very striking and realistic stage effects are introduced. Mr. Woodhull gives a natural impersonation of "Uncle Hiram," and makes much fun out of the part. Troja Griswold, a lively soubrette, with songs and dances, helps to make the performance "a great go."

E. A. Hibbard has been nominated for Trustee of the city on the Anti-saloon ticket. He is from the Flifth Ward, and was appointed in place of Calvin Esterly. The latter was nominated by the convention, but it was discovered that he had not been in Pomona long enough. While Mr. Esterly may be as good a man in every way as Mr. Hibbard, the change is undoubtedly a good one. He is an old "residenter," and is thoroughly posted on Pomona affairs. It is unnecessary to fly in and pick up new men simply because they are "from the East." We have just as good in the "wild and wooly West." An Eloquent and Powerful Sermon by Rev. E. R. Watson.

Delegates to the Sunday-school Conven tion to Arrive Today-Dissatisfaction Over the Anaheim Beetsugar Factory.

Rev. E. R. Watson of the Unity Society preached yesterday morning on the theme, "Is There a Hell?" The church was crowded and the discourse was one of the most elo quent efforts ever heard from a pulpit in this city. The speaker, after reviewing the growth of religious thought, and point ing out the fact that the literal hell of years gone by had long been repudiated by Christian people, concluded as follows:

Christian people, concluded as follows:

"Lastly, man's relation to God as a child, who, in the most abandoned conditions, may yet be touched by love, forbids our teaching the existence of an actual place of eternal torment instituted by the Heavenly Father himself, to which the vast majority of the race must be consigned at the close of this brief and unfair season of protation. By a fair estimate probably less than one-thirtieth of the human race today could be counted as worthy of church memthan one-thirtieth of the human race today could be counted as worthy of church membership, and the probability is that men will become still more liberal in the 'new age.' Yet God keeps on creating, keeps on perfecting human reason on the one hand, and on the other keeps up the flames of everlasting torment. One of the other should cease."

ANAHEIM. Saturday's Anaheim Journal has the following: "Considerable dissatisfaction has been found of late with the management of been found of late with the management of the affairs of the sugar factory, and the probability is that some of our leading capitalists will get together and build a factory. Such men as Henry Kroeger, William Koenig, F. Ruhman and F. Conrad are interested in the matter, and if the directors of the Anaheim Cooperative Beet Sugar Company do not soon do something it is probable these men will invest the capital and build the factory themselves. Beet planting has commenced, and if the men above mentioned take the matter in hand the factory will assuredly be built."

In addition to the above item the Journal or sometime of the compounded to control constipation, insist on Joy's and don't be talked into taking any other.

About two thousand acres of land are secured for the raising of beets by the farmers by bona fide contracts, and it seems to be the plan of the present movement to erect a factory of less capacity than was at first intended, but still ample to handle all the beets that would be raised the first two or three seasons, and then enlarge the plant as the demands might require and the profits warrant.

At any rate the new proposition is based on sound business principles, and under the management of such of our citizens as are mentioned in connection with the enterprise and the enlistment of their capital as well as that of others, whose names have

osition fails.

Every citizen of Anaheim, every inhabitant of the northern part of Orange county, in fact, is anxious to see this enterprise pushed to a speedy and successful issue, and to that end will give it hearty moral and financial support in a legitimate way. But if any men have worked their way into the affair to "make money" for themselves the affair to "make money" for themselves or to further private schemes at the ex-pense of the stockholders who have enpense of the stockholders who have en-tered the corporation in good faith, and with the expectation of working hard to earn their share of the legitimate profits of a legitimate business, there will cer tainly be a revolution that will result in the people taking the management of the affair into their own hands. It is sincerely hoped that all differences will be speedily adjusted, and that work on this grand enterprise will go smoothly on.

SANTA BARBARA COUNTY.

The Elizalde Will Contest to be Tried Monday.

The Elizalde will contest comes up Monlay before the Superior Court, to be tried by jury. Mrs. Elizalde will be represented by James L. Crittenden, a well-known lawyer of San Francisco. He will be assisted by Graves & Graves of San Luis Obispo and J. J. Boyce of this city. It is claimed that the will presented as the last testament of the late Señor Marcus Antonio Elizalde was a fraudulent document, and that the deceased was induced to sign it while not in his right mind, or under undue influence. He left an estate which, at a moderate estimate, is valued at \$48,000, only \$3000 of which was left to the widow, the remainder being left to other heirs. Mr. Elizalde was one of the best educated and ablest of our old Spanish-American citizens, being a man of unusually bright mind and great decision of character. The City Council, at its adjourned meeting Friday night, ordered a warrant drawn for \$600 to pay for the right-of-way for the boulevard over the Santa Cruz Island property. This company filed its deeds to this land several days before, and the transfer will be at once made. The Council also ordered a warrant drawn for \$6750 upon Frank Walker's contract for paying the Boulevard.

has a column editorial in regard to the management of the factory corporation, and giving the leading directors in the concern some pietty rough "raps." The entire article is an indorsement of the facts given by the Times correspondent in his letter of some days ago, to which letter an Anaheim paper saw fit to "take exceptions." The writer has known for some time that several of Anaheim's leading citizens and business men were talking of taking the matter of the crection of the sugar refinery into their own hands, having become very much dissatisfied with the many delays and the obstacles being thrown in the way of the cooperative seheme, but he thought it best to keep the matter quiet until the plans had become a little further advanced.

As to the charges, made against individual directors the Times correspondent does not wish to write, but that nine-tenths of our people are dispatisfied with the progress being made in the enterprise, no one will deny. Anaheim has a dozen or a score of wealthy citizens, who are themselves perfectly able to take hold of the factory in the respective processing of beets by the farmers by bona fide contracts, and it seems to be the plan of the present movement to erect a factory of less capacity than was at first intended, but still ample to handle all the beets that would be raised the first two or three seasons, and then enlarge the plant as the demands might require and the profits warrant.

Officer McGraw saw Brown tie the dog behind a box car, and when the man was asked what he was doing with the animal he claimed that the party who owned it had offered a reward of 60 cents for its return, and that he was simply holding the beast for the reward. Brown was booked for petty larceny, and locked up, notwith-standing his protests that it was a case of mistaken identity. When Jailer Hall asked him on which side the identity was mistaken he replied "the dog's."

The Mound City's Name.
[St. Louis Post-Dispatch.]
The city having been named in honor of St. Louis many suppose that the pronunciation should be "St. Looie," pronunciation should be "St. Looie," because that is the correct pronunciation of the name of the saint. Louis is not an English name, and Hume, in anglicizing it in history, always writes it "Lewis." All the French kings of the name "Louis" are "Lewis" in Hume's writings. Those who say "St. Looie" in speaking of the city may think it is more horor to the sainted King of France, for whom it was named, to use the French propunciation. On to use the French pronunciation. On the other hand, our language is English, and it is perfectly natural that there should be those who hold that the name of our cities should be as nearly English as possible. The "St. Looie" pro-nunciation will never cause any one to forget why the city was named St. Louis, and if it is the most popular it should be generally accepted. Doubtless the earliest settlers never said "St Loois," but it is a long time since they

A NEW INDUSTRY.

A Rolling Mill to Be Added to Los Angeles Manufactories.

t Will Cost \$150,000 and Employ a Large Number of Workmen-A Board of Directors Has Been Elected.

A rolling mill is about to be located in Los Angeles which will be an important adjunct to her manufacturing terests and will furnish, employment to a large number of employes. Chamberlain, an Eastern gentleman, who came here at the solicitation of A. S. Robbins of this city, has been engaged for three months in examining into the practicability of the enterprise and, after careful investigation, is much pleased with the outlook. He says: "In my twenty-five years' experience in leasting and operating incomparing in the says." perience in locating and operating iron works I have found but few, if any places, that promise better returns on the outlay for a moderate-sized rolling mill. The size of mill that I have advised to build is one that will make from ten thousand to twelve thousand tons of iron annually when run to its full capacity. Should the demand be increased as I anticipate, it will in a very few years develop into a large in-dustry, which, in my opinion, will add greatly to the prosperity of Southern California, as it will surely bring other manufactories and start the industrial wheels to rolling in the right direc

In reply to the question as to the probable cost of the mill, the class of iron to be made and the number of em-

ployés, Mr. Chamberlain replied:
"The estimated cost of such a rolling mill is in the neighborhood of \$150, 000, and it will be designed to make all kinds of light plate and sheet-iron from a quarter-inch thick down to the thinnest stove-pipe iron, and all kinds of bar iron and angle iron except the very large sizes, also small T-rail. When the mill runs to its full capacity it will employ from seventy-five to one hundred men, and it will be so arranged that, if the market de-

mands, additional machinery can be easily added. I find there is brought into Southern California yearly a much larger amount of iron than this mill can make and the demand is rapidly increasing. The material used in the manufacture of this iron will be old iron rails, wrought iron scrap and a soft or low carbon steel and, to some extent, old steel rails which we expect to get largely from territory tributary to Los Angeles. In regard to competition? Well, for merchant iron competition will come from San Francisco and the Eastern States for sheet iron, entirely from the East, as there are no sheet iron mills on the Pacific Coast, consequently there will be a large-field in which to sell this part of the mill products. The high price of coal will affect the industry to some extent, but crude petroleum is now being extensively used in the East with great success and economy. in heating fron in heating furnaces and under boilers. This is being done where coal can be bought for from 75 cents to \$1.80 per ton and oil at 65 to 75 cents per barrel. We shall use oil in our heating furnaces and probably for generating steam."

The company has been started under the name of the Los Angeles Iron and Steel Company, with a capital of \$150,000, and the following board of directors has been elected: F. N. Myers, A. S. Robbins, J. H. Harris, Damerall and C. D. Pillsbury, who have organized by electing F. N. Myers president and treasurer; A. S. Robbins, vicepresident; W. B. Smith, secretary, Seventy thousand dollars has been sub-scribed, and the balance of \$80,000 will probably be placed in the next fifteen days. The mill will probably be in operation by October 1, and the annual payroll will, if the mill is run on full time, be over \$50,000, and the

value of the manufactured iron will be about \$500,000.

Mr. Myers, president of the Security Savings Bank, and also president and treasurer of the new company, expresses the same confidence in the success of the measurer does. cess of the enterprise as does Mr. Chamberlain, whom he says comes highly recommended as a builder and manager of iron works. The company has located its office in the Burdick

TO THE LADIES OF Southern California

somest creations in Millinery effects that are to be had in the European or American markets. Our styles are correct and the very newest designs. We show a high class of Millinery novelties at the lowest possible prices consistent with legitimate merchandising.

Our new trimmer who is from New York, when asked to put a price on a certain article, told us that she could not, as our prices were so much lower than anything she had been accustomed to heretofore for a similar quality. It will be worth your while to come in today, if not only to see the styles to see the beauty and artistic elegance with which our Millinery Parlors are decorated. You will realize the effect of natural and artificial foliage combined with varied colored lights, resplendent with the newest hues, and colorings, that will make our parlors a

ral and artificial foliage combined with varied colored lights, resplendent with the newest hues and colorings, that will make our parlors a a bower of Paradise. Having seen the beautiful things that we have to show in this department, we think you will at once say that we are the leaders of Millinery in this vicinity, without peers in workmanship and creation, and so perceptibly lower in price than any other house, that you will want to leave your order for your new Easter Bonnet with us.

We will esteem it a personal favor and feel very much gratified if you will bestow upon us the pleasure of your company at our opening. We are aiming at the highest creations in Millinery, and it is to your advantage to encourage us at least by your presence to have this class of goods placed before you. A little encouragement in this respect goes a great way, and spurs us on to greater efforts in the future.

Dress Goods.

Having seen the beautiful things shown in our millinery department, we will call your attention to the novelties shown in our dress goods department. It is not conceit, neither is it business advertising when we say that we have the most beautiful stock of silks and dress goods, better than ever known in the history of our house heretofore, and it is truth when we say that the prices cannot possibly be equalled by any other concern in town. This business has taken gigantic steps forward in the sale of fine goods at reasonable prices. We have confidence in our merchandise, stability in our price, and we know that we are not equalled or approached in either. It is for you to learn this fact, and henceforth we will be strong friends.

Our line of 50c dress goods is the greatest value that any dry goods house in the country could possibly offer. The line of solid colored broadcloth weave, 44 inches wide, all-wool goods, cost that much to

manufacture.

Our lines of novelty plaids at 50c a yard will surprise you, for their quality and colorings. The line of black dress goods at 75c a yard is Lord & Taylor's importation. We merely cite these as a guarantee for quality; they are value at from \$1 to \$1.50 a yard, are fancy weaves, and the lowest priced goods for quality in this country. Our black silk warp Henrietta at \$1.25 a yard we will put beside any other \$1.75 quality in this town, and if ours is not superior and finer in texture we will take a back seat. We have Priestly's in stock at \$1.75, and the quality we offer today at \$1.25 is finer and better. Our lines of dress goods at 75c, \$1.00, \$1.25 and \$1.50, for quality and style, are not to be approached; they are as low priced in comparison as the 36-inch half-wool Cheviot at 15c a yard that we are selling in our domestic department for this price. Our line of silks from 50c to \$3.00 a yard in plain, fancies, changeables and novelties are equally as low priced as manufacture. partment for this price. Our fine of sixes from 500 to 3,500 a yard mightin, fancies, changeables and novelties are equally as low priced as our dress goods. This is the main department in our house; we are hammering away at it with might and main. We started last in the race for the dress goods trade of this town, but we are forging our nose ahead season by season until we shall come under the wire first and foremost. We guarantee every yard of dress goods sold to be perfectly sound and warranted to wear, and if it does not we will make it good in every interest. stance. More than that, we will esteem it a special favor if any one who has bought any goods from us will report their dissatisfaction, as it will serve us to guard against any goods from the same manufacturer in the future. We have larger, more varied and more departments than any concern in this town; we are in a position to handle more goods, to bell more goods, and to sell them closer than any concern in this town. We don't find it necessary to deceive the public to transact our business. It is their confidence that we are aiming at, and never abuse it. We received yesterday by express 50 pieces of all-wool Challies in the newest and neatest designs, that we placed on sale at 50c

Laces,

Embroideries and Veilings.

Yesterday's express brought us a most magnificent line of embroideries; they are the very finest of goods; we have never had such beautiful effects in our stock before; we call them works of art, and you will agree with us that they are the handsomest things in embroideries that you have ever laid your eyes upon. More than this, you will be agreeably surprised to find the price but very little more than an ordinary, common nainsook edge. The same thing is true of the line of new needle point laces that we are showing. They range in price from 25c for a three-inch width, to 80c for an eight-inch width. Some of them are as fine as a spider web; they are perfectly lovely, and you will find the price for them as low, quality considered, as a yard-wide bleached muslin is at 5c a yard. The line of veilings that we are showing is beyond doubt the largest in this city. Every piece that we speak of is new, and has not been in the house 48 hours. We opened three cases—that means some money invested in veilings. You will find novelties from 10c to \$1.00 a yard. The dollar quality is as low priced as is the 10c.

Trimmings.—We have made a reputation in this department within the past two seasons, not only for the quantity carried and the varied styles, but also for the price at which they are sold. We honestly believe that we sell more trimmings than any three houses combined. The new "Bolero" jackets are shown in all colorings; they are very stylish. We simply call your attention to what we have in this line, and if our prices for the quality we show are not perceptibly below others, then we will have to come to the conclusion that "we don't know much for sure."
